NOTES	Asymmetric direction is determined by lens position. Field adjustable for wall side or room side throw.	Consult factory for outputs between min and max.	Consult factory for outputs between min and max.	Refer to Pattern configuration guide below for nomenclature. Please see Pattern Guide on p.2 for further details.	WCT - max lm/ft is 1000 based on 80 CRI and 4000K. Other CCT's are available consult factory. RGB and RGBW require DMX driver
-------	---	--	--	---	---

Consult factory for custom colors.

AWNR-W, AWNR-B, AWNS-W, AWNS-B, VDO, VRF, SPD, & CLM options supplied with DXL driver standard. Emergency Shunt Relay typically required with Controls and EC circuits. Quickship for controls is based on receipt of a clean signed submittal drawing.

EB option only available for lengths greater than 4ft (RGBW will be White Channel only). EB not compatible with RGB. For EC circuits with RGB/RGBW a DMX Emergency Bypass Controller is required (by others).

**LIGHT SOURCE**

Long life name brand LED chips and boards to ensure the highest of quality while providing even and smooth illumination throughout our luminaires.

Our luminaires are available in 2700K, 3000K, 3500K and 4000K color temperature as well as White Color Tuning (2700-6500K).

Optional 80CRI or 90CRI available in all CCT options.

**LUMEN MAINTENANCE**

The projected lumen maintenance of the name brand mid-powered LED's are projected to maintain 80% (L80) of their initial output for +80,000 hours.

**CONSTRUCTION**

The housings are constructed of (6063T5) extruded aluminum. Our internal joiner system is designed to the highest of standards to ensure our precision cut housings align and fit tightly without light leak. Our precision fitting end caps are constructed out of die cast aluminum and our steel reflectors are painted white.

**FINISH**

Polyester powder, low gloss textured paint finish applied after a multi-stage pretreatment. Standard luminaire finishes include white, silver, and black. Custom color options are available. (Consult Factory).

**CORNERS**

Precision mitered and seam welded corners are fully illuminated.

**OPTICS**

Snap in extruded frosted acrylic lens

**DRIVERS**

All of our luminaires come standard with 1% dimming and THD <20% utilizing 0-10v constant current protocol. 120v/277v is standard with the option of 347v. Driver ambient operating temperature -30°C to +50°C.

**EMERGENCY**

An integral factory installed 10 watt emergency battery pack. Emergency circuit and Night Light circuit options are available.

**LUMINAIRE WEIGHT**

Our EOS 4.0 Wall Direct/Indirect luminaire series are available in 2', 3', 4', 5', 6', 7' and 8' individual lengths or continuous row configurations. Continuous row configurations are joined together on-site utilizing the joiner kits provided.

**PATTERN GUIDE**

W. PATTERN		X. PATTERN DIMENSIONS		Y. PATTERN CODE		Z. PATTERN ORIENTATION	
Pattern	PAT	Enter length of each segment in pattern separated by an "x"	AxB	L Pattern	L	Horizontal	H

**NOTES**

Dimensions for Patterns are based on outside dimensions of the pattern.  
 Patterns in all cases will require a signed-off submittal prior to release of an order.  
 For Patterns created against walls, the layout will be created using inside wall dimensions from drawings received.

Above code gets entered in "D" LENGTH field of ordering guide.

CONTINUOUS RUN ORDER GUIDES

Please use the following run guides for fixture ordering. If your product will require a submittal, our in-house Application Engineering Team will work closely with you on your project.
